

# VOICES

## THE RIGHT ANSWER WINS

Through December 10, all customers with the right answer to this month's question will be entered into a drawing for a chance to win a set of indoor LED holiday lights.

**Q:** What Rocky Mountain Power number do you call to report a power outage?

Choose from two ways to enter: log on to [rockymountainpower.net/voices](http://rockymountainpower.net/voices) or mail to:

Right Answer  
Rocky Mountain Power  
201 S. Main, Suite 2400  
Salt Lake City, UT 84111

Winners will be notified by mail. Limit one entry per household.

## THE LATEST WORD

### Supporting communities

Each autumn our employees and retirees generously donate to our Community Giving Campaign to deliver needed services in their communities. By choosing to donate to their local United Way, a nonprofit organization of their choice, or Energy Share of Wyoming, they make a difference in the lives of neighbors in need. In 2008, their donations topped \$344,800, with the Rocky Mountain Power Foundation providing another \$310,000. "As a member of the community, this is our opportunity to step up and help fund programs that address hunger, energy assistance, education and other basic needs," said Richard Walje, Rocky Mountain Power president.

## Get ready for winter's punch

Winter weather's on the way. That can mean power outages. But rest assured, we'll be working to restore your electricity as soon as possible. And while no one can stop the weather, here are a few tips that can help.

### Make an outage kit

Assemble an outage kit that includes flashlights, batteries, a battery-powered or wind-up clock and radio, bottled water, a manual can opener and ready-to-eat foods. Add a blanket and store everything in a watertight box.

### Call 1-877-LITESOUT

If your home loses power, first check the circuit breaker or fuse box to see if the problem is inside. Check to see if neighbors are without power. If so, report the outage by calling **1-877-LITESOUT** (1-877-548-3768). Our automated reporting system will give you the cause of the outage if it's known, and the approximate time we expect to have the power restored.

### Stay safe

If you see a power line on the ground, stay away from it and immediately call us toll free at 1-888-221-7070. You cannot tell by looking at a downed line if it's energized. Keep others away too. Never touch a person who is touching a power line. Call 911 immediately.

### Getting the power on

Our Web site at [rockymountainpower.net/outage](http://rockymountainpower.net/outage) shows how we go about restoring the power following an outage. Click on "power restoration" to see the interactive demonstration. You also can order our free outage preparation booklet online or call us toll free at 1-888-221-7070.

## Make holidays bright for others

Many households in Wyoming are struggling financially this season. Here are some ways you can help make their holidays brighter.

### Energy Share of Wyoming

Please join Rocky Mountain Power and our employees and send a donation in the enclosed envelope to Energy Share of Wyoming. The Salvation Army qualifies and allocates funds to those needing assistance with their energy bills.

### Fixed donation

Donate year round by adding any amount to your Rocky Mountain Power bill each month. We'll

forward the extra dollars to Energy Share of Wyoming. To enroll, call us toll free at 1-888-221-7070.

### Gift payment

Help a friend or neighbor by making a gift payment to his or her Rocky Mountain Power account. Choose the amount you'd like to give and whether you want the gift to be anonymous. To make a payment, go to [rockymountainpower.net/gift](http://rockymountainpower.net/gift) or call us toll free at 1-888-221-7070.

For ways to reduce your energy use, visit our Web site at [rockymountainpower.net/save](http://rockymountainpower.net/save). Or call us toll free at 1-888-221-7070.

## BRIGHT IDEAS

### Holiday lighting

Save energy while making your holidays brighter with LED (light emitting diode) decorative lighting. These lights use about one-tenth the amount of electricity as mini lights. They last up to 100,000 hours or more indoors and about half that long outdoors – much longer than other types of lighting. Plus the bulbs are cool to the touch, making them a smart choice for fire safety in your home. Save even more electricity by plugging your holiday lights into a timer that automatically turns them off during the day or when you're sleeping.

## Improve comfort and save cash

Your home may be wasting energy in ways you can't even see. That's why we've partnered with Wyoming Home Performance with ENERGY STAR® to help Wyoming homeowners save energy through whole-house energy efficiency improvements.

Under the program, qualified participating contractors conduct top-to-bottom, whole-house inspections of your home, including diagnostic tests to find where energy is being wasted. Contractors who participate in Wyoming Home Performance are trained and certified to nationally recognized standards.

With this detailed information, you can choose the most cost-effective energy efficiency investments for your home.

To learn more about Wyoming Home Performance with ENERGY STAR and how to

find a participating contractor, go to [www.wyominghomeperformance.com](http://www.wyominghomeperformance.com) or call 307-742-9924.

In addition, our Home Energy Savings program offers incentives for a variety of energy efficiency improvements. Visit our Web site at [rockymountainpower.net/hes](http://rockymountainpower.net/hes) or call toll free 1-800-942-0266. Our Web site also has tips on how you can cut your energy use this winter.

## SAFETY MATTERS

### Holiday safety

We wish you a happy holiday season, and offer these simple tips to stay safe:

- Locate and avoid contact with any overhead power lines when hanging outdoor lights.
- Check packaging on lights to determine if they are rated for indoor or outdoor use and the maximum number of strings that can be plugged together.
- Do not use lights with cracked wiring or loose connections.
- Turn off indoor and outdoor lighting when leaving home. For convenience, use an automatic timer.
- Avoid overloading circuits or extension cords.

For other indoor electrical safety tips, visit [rockymountainpower.net/safety](http://rockymountainpower.net/safety) or call us toll free at 1-888-221-7070.

## Equal pay makes budgeting easy

Our Equal Payment program lets you pay the same amount each month, based on your household's average electric bill. To help you stay on budget, we periodically review your account and may adjust your monthly payment. Use Equal Pay with one of these convenient payment options.

### Online payment

Our most popular online payment option provides flexibility to securely pay your bill on our Web site. You can schedule an online

payment, choose to go paperless to help the environment and have the ability to store your bank account information online if you prefer.

### Automatic monthly payment

Under the program, you authorize Rocky Mountain Power to deduct funds directly from your checking

account each month to pay your electric bill on the due date.

To learn more about these free services, visit [rockymountainpower.net/pay](http://rockymountainpower.net/pay) or call us toll free at 1-888-221-7070.

Customers who are facing financial difficulties, and may not be able to pay their energy bills, are encouraged to contact Rocky Mountain Power. We have a variety of options to help those struggling with their electric bills. Call us toll free at 1-888-221-7070.

To reach us, call toll free: 1-888-221-7070, 24 hours a day, 7 days a week. To report an outage, call toll free: 1-877-548-3768 (1-877-LITESOUT).

Para un representante que habla español: 1-888-225-2611. Su llamada será gratuita.
