

ROCKY MOUNTAIN POWER
ELECTRIC SERVICE SCHEDULE NO. 118

STATE OF UTAH

Low Income Weatherization

APPLICABLE: This tariff is applicable to residential customers residing in single family, multi-family and manufactured home dwellings in all territory served by the Company in the state of Utah.

ELIGIBLE: Rocky Mountain Power customers in the state of Utah that are certified as eligible according to the Utah Department of Community and Culture's (DCC) Weatherization Assistance Guidelines. Income eligibility is based on current requirements set by DCC. Company will direct interested Customers to the participating agency in their county. Agencies will provide program details and enrollment directions.

PURPOSE: Service under this schedule is intended to maximize the efficient utilization of the electricity requirement of existing residential use dwellings or facilities inhabited by customers that meet income guidelines through the installation of cost-effective energy efficient materials.

DESCRIPTION: Service under this program is available to improve the energy efficiency of applicable residential use dwellings or facilities connected to Company's system. The decision to extend service under this schedule shall be based on eligibility requirements contained herein.

DEFINITIONS:

Dwelling: Real or personal property within the state inhabited as the principal residence of a dwelling owner or a tenant. "Dwelling" includes a manufactured home, a single-family home, duplex or multi-unit residential housing. "Dwelling" does not include a recreational vehicle.

Duplexes and fourplexes are eligible if at least one-half of the dwelling is occupied by low income tenants.

Triplexes and multi-family dwellings are eligible if at least 66% of the units are occupied by low income tenants.

Facilities: Housing facilities whose principal purpose is to house, on a temporary basis, individuals who may or may not be related to one another and who are not living in nursing homes, prisons, or similar institutional care facilities

(continued)

ELECTRIC SERVICE SCHEDULE NO. 118 - Continued

DEFINITIONS: (continued)

Agency: A non-profit group, State, Municipality or County authorized to receive funds for installation of weatherization materials in low income properties.

Energy Audit: A service provided by the Agency that includes the measurement and analysis of the energy efficiency of a dwelling including energy savings potential that would result from installing energy efficient measures that are determined to be cost effective.

Low Income: Households qualifying under the federal low income guidelines and certified for eligibility according to agency procedure. Income eligibility is based on current requirements set by DCC.

Major Measures: Ceiling insulation, wall insulation, floor insulation, and window replacement, applicable in dwellings with permanently installed operable electric space heating systems.

Supplemental Measures: Measures that are not required under this schedule, but may qualify for a Company reimbursement.

Additional Measures: Measures where reimbursement is specified instead of calculated as 50% of the installed cost.

FINANCIAL ASSISTANCE:

- (1) The Company will reimburse the Agency 50% of the installed cost of all major measures and supplemental measures installed, and 50% of the cost related to refrigerator testing, as required in this tariff. These reimbursements will be calculated after property owner contributions are deducted. Financial assistance on additional measures that are not calculated as 50% of the installed cost are detailed under the Additional Measures section in page 5 of this tariff. Financial assistance will be provided one time only on any individual major or supplemental measure, and up to two times per dwelling.
- (2) The Company will reimburse the Agency for administrative costs based on 10% of Rocky Mountain Power's rebate on installed measures, not to exceed the following

(continued)

ELECTRIC SERVICE SCHEDULE NO. 118 - Continued

FINANCIAL ASSISTANCE: (continued)

total administrative payment per building:

Dwelling Units in Building	Maximum RMP Administrative Payment
1 to 4	\$350
5 to 10	\$800
11 to 15	\$1200
16 to 20	\$1400
21 to 25	\$1600
26 to 30	\$1800
31+	\$2100

- (3) Agencies must invoice the Company within sixty days of job completion.

ENERGY EFFICIENT MEASURES:

Financial assistance will be provided based on the results of a cost effective analysis through a Department of Energy approved energy audit. The energy efficient measures eligible for funding must be installed in dwellings with permanently installed operable electric space heat except where noted. The energy efficient measures that may be eligible for funding are listed as follows along with their estimated measure life where applicable:

Major Measures:

- (1) Ceiling insulation up to R-48 for ceilings with less than R-30 in place. R-30 or better attics will not be further insulated: 30 years.
- (2) Floor insulation over unheated spaces up to R-30: 30 years.
- (3) Wall insulation up to R-26 for walls with no insulation installed (financing will not be available for the installation of urea-formaldehyde wall insulation): 30 years.
- (4) Low E vinyl replacement windows: 25 years.

Nothing shall preclude the Company from providing a reimbursement for the installation of a greater R value of insulation for the above items that are determined to be cost effective through the audit process.

(continued)

ELECTRIC SERVICE SCHEDULE NO. 118 - Continued

ENERGY EFFICIENT MEASURES: (continued)

Supplemental Measures – Electrically Heated Homes:

- (1) Attic ventilation, excluding power ventilators when installed with ceiling insulation (required if needed at the time ceiling insulation is installed). Whole house mechanical ventilation and spot ventilation for kitchen and baths at time ceiling insulation is installed: Always considered cost effective.
- (2) Ground cover and water pipe wrap when installed with floor insulation; other vapor barrier materials as required when installed with floor or ceiling insulation: Always considered cost effective.
- (3) Forced air electric space heating duct insulation and sealing in unheated spaces: 30 years.
- (4) Weather stripping and/or caulking, including blower door assisted air sealing and duct sealing: Always considered cost effective.
- (5) Thermal doors: 30 years.
- (6) Timed thermostats on centrally controlled multi-room heating/cooling systems except when used with heat pumps. Heat anticipating type thermostats for zonal electric resistance heating systems. Zonal thermostats must be separate from the heating unit and must be calibrated at the site to within 2°F of actual room temperature in the range of 65°F-75°F: Always considered cost effective.

Supplemental Measures – No Electric Heating System Requirement:

- (1) Energy efficient showerheads and aerators where electric water heaters are present: Always considered cost effective.
- (2) Refrigerators with monitored results showing a savings-to-investment ratio of 1.0 or greater may be replaced with an Energy Star model with estimated annual consumption of 500 kWh or less. Refrigerator usage will be monitored for a minimum of 72 hours. Replaced refrigerators must be removed and recycled in accordance with EPA guidelines: 19 years.

(continued)

ELECTRIC SERVICE SCHEDULE NO. 118 - Continued

ENERGY EFFICIENT MEASURES: (continued)

Supplemental Measures – No Electric Heating System Requirement (continued)

- (3) Replacement of inefficient window air conditioning units when audit results determine this to be cost effective. Existing units must have been operated during the past 12 months. Replacements must be Energy Star rated.
- (4) Replacement of inefficient central air conditioning units with evaporative coolers when audit results determine this to be cost effective. Existing units must have been operated during past 12 months. Swamp coolers must be Energy Star rated.
- (5) Forced air electric cooling duct insulation and sealing in unheated spaces.

Additional Measures – The funding mechanism for these measures is specified below:

- (1) Compact fluorescent light bulbs, the Company will reimburse DCC for 100% of costs associated with the purchase of Energy star certified compact fluorescent light bulbs (CFLs) installed through this program tariff. CFLs may be installed in all fixtures in use for two or more hours a day.
- (2) Furnace fans, a reimbursement of \$100/home is available to cover costs associated with an efficient furnace fan that is included in the installation of an efficient gas furnace.
- (3) Energy education, a \$50 reimbursement will be provided on electrically heated households that receive one or more major measures and are provided energy education through a curriculum developed by DCC.

PROVISIONS OF SERVICE:

- (1) A Department of Energy approved Energy Audit must be completed by the Agency prior to installation of major measures by the Agency.
- (2) Agency must qualify residential customers for assistance using the federal low income guidelines. Income eligibility is based on current requirements set by DCC.
- (3) Installation shall meet Federal, State and Local building codes.

(continued)

ELECTRIC SERVICE SCHEDULE NO. 118 - Continued

PROVISIONS OF SERVICE: (continued)

- (4) Measures installed under this schedule shall not receive financial incentives from other Company programs.
- (5) Agency shall inspect measure installation to insure that the weatherization measures and installation practices meet or exceed required specifications.
- (6) Company may audit Agency weatherization and financial records and inspect the installations in dwellings of customers receiving services under this program.
- (7) Company shall pay the Agency the amount established under the terms of their contract when provisions of the schedule have been met.

ELECTRIC SERVICE REGULATIONS: Service under this Schedule will be in accordance with the terms of the Electric Service Agreement between the Customer and the Company. The Electric Service Regulations of the Company on file with and approved by the Public Service Commission of the State of Utah, including future applicable amendments, will be considered as forming a part of and incorporated in said Agreement.
