

Food Service

Rocky Mountain Power provides incentives for many types of energy efficient technologies. Please read the following sections carefully to ensure that you follow the appropriate steps for securing your incentive.

Incentives for additional measures may be available. For more information about the FinAnswer Express program, eligibility requirements, incentive levels or other general inquiries, contact your local equipment dealer or Rocky Mountain Power. You can visit the program website at rockymountainpower.net/wattsmart and submit your inquiry online, or you can call our **energy services hotline** at **1-800-222-4335**.

ELECTRIC COMBINATION OVEN

Measure Description: Combination ovens perform the functions of both regular ovens and steam cookers, either separately or simultaneously. High-efficiency electric combination ovens are about 20% more efficient when compared to standard-efficiency units and can significantly reduce annual energy costs.

Applicability: New construction and retrofit installations are eligible for incentives via a post-purchase application.

Equipment Eligibility: Equipment must be purchased and installed on or after October 1, 2011, and meet all other program terms and conditions. Incentives are available for equipment meeting or exceeding a minimum Heavy Load efficiency of 60% and an Idle Energy Rate \leq 3kW (tested in accordance with ASTM F1639). Please confirm with your vendor that the equipment meets this required standard prior to purchase.

Items to submit with application:

1. Dated sales receipt/invoice with install date and retailer/contractor name, address and phone number.
2. Itemized listing of quantity, description, manufacturer, model number and other identifying information as appropriate.
3. Manufacturer's equipment specification sheet.
4. A current copy of the Rocky Mountain Power utility bill for the address where the item(s) are installed.

Prequalification Required? No.

<u>Equipment Code</u>	<u>Efficiency Requirements</u>	<u>Incentive</u>
COMOVE	1. Minimum Heavy Load Efficiency of 60% 2. Idle Energy Rate \leq 3kW.	\$ 1,000 / unit

ELECTRIC CONVECTION OVEN

Measure Description: Commercial convection ovens have a motorized fan or blower that circulates hot air uniformly and continuously throughout the oven. Convection ovens result in faster, more even cooking processes relative to standard or natural convection ovens.

Applicability: New construction and retrofit installations are eligible for incentives via a post-purchase application.

Equipment Eligibility: Equipment must be purchased and installed on or after October 1, 2011, and meet all other program terms and conditions. Incentives are available for equipment meeting or exceeding a minimum cooking efficiency of 70% (tested in accordance with ASTM F1496). Please confirm with your vendor that the equipment meets this required standard prior to purchase.

Items to submit with application:

1. Dated sales receipt/invoice with install date and retailer/contractor name, address and phone number.
2. Itemized listing of quantity, description, manufacturer, model number and other identifying information as appropriate.
3. Manufacturer’s equipment specification sheet.
4. A current copy of the Rocky Mountain Power utility bill for the address where the item(s) are installed.

Prequalification Required? No.

<u>Equipment Code</u>	<u>Efficiency Requirements</u>	<u>Incentive</u>
CONOVE	Minimum Cooking Efficiency of 70%	\$ 350 / unit

ELECTRIC GRIDDLE

Measure Description: An electric griddle is a plate heated from underneath by an electric element. High-efficiency commercial griddles transfer heat more efficiently and are about 10% more efficient than standard-efficiency units.

Applicability: New construction and retrofit installations are eligible for incentives via a post-purchase application.

Equipment Eligibility: Equipment must be purchased and installed on or after October 1, 2011, and meet all other program terms and conditions. Incentives are available for equipment that is ENERGY STAR qualified (Tier I or Tier 2). Please confirm with your vendor that the equipment meets this required standard prior to purchase.

For a list of qualified equipment visit: www.energystar.gov

Items to submit with application:

1. Dated sales receipt/invoice with install date and retailer/contractor name, address and phone number.
2. Itemized listing of quantity, description, manufacturer, model number and other identifying information as appropriate.
3. Manufacturer’s equipment specification sheet.
4. A current copy of the Rocky Mountain Power utility bill for the address where the item(s) are installed.

Prequalification Required? No.

<u>Equipment Code</u>	<u>Efficiency Requirements</u>	<u>Incentive</u>
GRIDT1	ENERGY STAR Tier 1	\$ 250/ unit
GRIDT2	ENERGY STAR Tier 2	\$ 350/ unit

ELECTRIC INSULATED HOLDING CABINET

Measure Description: Commercial insulated holding cabinets are designed to hold hot food at a specified temperature. High-efficiency electric holding cabinets are 65% more efficient than standard units and can significantly reduce annual energy costs.

Applicability: New construction and retrofit installations are eligible for incentives via a post-purchase application.

Equipment Eligibility: Equipment must be purchased and installed on or after October 1, 2011, and meet all other program terms and conditions. Two tiers of incentives are available: first, equipment that is ENERGY STAR qualified and second, equipment that utilizes ≤ 20 watts/ cubic foot (tested in accordance with ASTM F1496).

For a list of qualified equipment visit: www.energystar.gov

A list of qualifying products is available on the ENERGY STAR website at:
http://www.energystar.gov/ia/products/prod_lists/HFHC_prod_list.xls

Items to submit with application:

1. Dated sales receipt/invoice with install date and retailer/contractor name, address and phone number.
2. Itemized listing of quantity, description, manufacturer, model number and other identifying information as appropriate.
3. Manufacturer’s equipment specification sheet.
4. A current copy of the Rocky Mountain Power utility bill for the address where the item(s) are installed.

Prequalification Required? No.

<u>Equipment Code</u>	<u>Efficiency Requirements</u>	<u>Equipment Category</u>	<u>Incentive</u>
EIHCA1	Tier 1: ENERGY STAR Qualified	Full Size (≥ 28 ft ³)	\$300 / unit
EIHCA2		3/4 Size (≥ 13 ft ³ & < 28 ft ³)	\$250 / unit
EIHCA3		1/2 Size (< 13 ft ³)	\$200 / unit
EIH1T2	Tier 2: W/ft ³ ≤ 20 W	Full Size (≥ 28 ft ³)	\$600 / unit
EIH2T2		3/4 Size (≥ 13 ft ³ & < 28 ft ³)	\$500 / unit
EIH3T2		1/2 Size (< 13 ft ³)	\$400 / unit

ELECTRIC COMMERCIAL FRYER

Measure Description: Commercial fryers heat oil used to cook food. High-efficiency fryers reduce heat loss and require less energy when idle. High-efficiency fryers are up to 30% more efficient than standard-efficiency units and can significantly reduce annual energy costs.

Applicability: New construction and retrofit installations are eligible for incentives via a post-purchase application.

Equipment Eligibility: Equipment must be purchased and installed on or after October 1, 2011, and meet all other program terms and conditions. Two tiers of incentives are available: first, equipment that is ENERGY STAR qualified and second, equipment that has a minimum cooking efficiency of 86.6% and an Idle Energy Rate \leq 772 Watts (tested in accordance with ASTM F1496).

For a list of qualified equipment visit: www.energystar.gov

A list of qualifying products is available on the ENERGY STAR website at:
http://www.energystar.gov/ia/products/prod_lists/Fryers_prod_list.xls

Items to submit with application:

1. Dated sales receipt/invoice with install date and retailer/contractor name, address and phone number.
2. Itemized listing of quantity, description, manufacturer, model number and other identifying information as appropriate.
3. Manufacturer’s equipment specification sheet.
4. A current copy of the Rocky Mountain Power utility bill for the address where the item(s) are installed.

Prequalification Required? No.

<u>Equipment Code</u>	<u>Efficiency Requirements</u>	<u>Incentive</u>
COMFRE	ENERGY STAR Qualified	\$ 200 / unit
COMFR2	1. Minimum Cooking Efficiency of 86.6% 2. Idle Energy Rate \leq 772 Watts	\$300 / unit

ELECTRIC COMMERCIAL STEAM COOKER

Measure Description: Commercial steam cookers, also referred to as a compartment steamers, have one or more food steaming compartments. High-efficiency steam cookers are up to 50% more efficient compared to standard-efficiency units and can significantly reduce annual energy costs.

Applicability: New construction and retrofit installations are eligible for incentives via a post-purchase application.

Equipment Eligibility: Equipment must be purchased and installed on or after October 1, 2011, and meet all other program terms and conditions. Two tiers of incentives are available: first, equipment that is ENERGY STAR qualified and second, equipment that has a minimum cooking efficiency of 65% and an Idle Energy Rate \leq .23 kW (tested in accordance with ASTM F1496). Models may include countertop models, wall-mounted models and floor-models mounted on a stand, pedestal or cabinet-style base.

For a list of qualified equipment visit: www.energystar.gov

A list of qualifying products is available on the ENERGY STAR website at:
http://www.energystar.gov/ia/products/prod_lists/Steamers_prod_list.xls

Items to submit with application:

1. Dated sales receipt/invoice with install date and retailer/contractor name, address and phone number.
2. Itemized listing of quantity, description, manufacturer, model number and other identifying information as appropriate.
3. Manufacturer’s equipment specification sheet.
4. A current copy of the Rocky Mountain Power utility bill for the address where the item(s) are installed.

Prequalification Required? No.

<u>Equipment Code</u>	<u>Efficiency Requirements</u>	<u>Equipment Category</u>	<u>Incentive</u>
STMCKR	ENERGY STAR Qualified	3, 4, 5, and 6-pan sizes	\$ 750 / unit
STMCK2	1. Minimum Cooking Efficiency of 65% 2. Idle Energy Rate \leq .23 kW	3, 4, 5, and 6-pan sizes	\$ 840 / unit

RESIDENTIAL DISHWASHER

Measure Description: Residential dishwashers are designed to clean and sanitize dishes, utensils and cookware. ENERGY STAR qualified residential dishwashers, on average, are 10% more efficient than non-qualified models.

Applicability: New construction and retrofit installations are eligible for incentives via a post-purchase application.

Equipment Eligibility: Equipment must be purchased and installed on or after October 1, 2011 in a business that uses electrically heated domestic hot water, and meet all other program terms and conditions. Models with electric or gas booster heaters are eligible for incentives. Incentives are available for equipment that is ENERGY STAR qualified.

For a list of qualified equipment visit: www.energystar.gov

A list of qualifying products is available on the ENERGY STAR website at:

http://www.energystar.gov/index.cfm?fuseaction=dishwash.display_products_excel

Items to submit with application:

1. Dated sales receipt/invoice with install date and retailer/contractor name, address and phone number.
2. Itemized listing of quantity, description, manufacturer, model number and other identifying information as appropriate.
3. Manufacturer's equipment specification sheet.
4. A current copy of the Rocky Mountain Power utility bill for the address where the item(s) are installed.

Prequalification Required? No.

<u>Equipment Code</u>	<u>Incentive</u>
DWERES	\$ 20 / unit

RESIDENTIAL REFRIGERATOR

Measure Description: High-efficiency refrigerators are better insulated and contain more efficient refrigeration systems. ENERGY STAR qualified refrigerators, on average, are 20% more efficient than the minimum federal standard, resulting in considerable energy savings.

Applicability: New construction and retrofit installations are eligible for incentives via a post-purchase application.

Equipment Eligibility: Equipment must be purchased and installed on or after October 1, 2011 in a business, and meet all other program terms and conditions. Incentives are available for qualified refrigerators listed on the Rocky Mountain Power Home Energy Savings website.

For a list of qualified equipment or more information, please visit: www.homeenergysavings.net

A list of qualifying products is available on the Home Energy Savings website at:
http://www.homeenergysavings.net/Downloads/Qualified_PPRefrigerators.pdf

Items to submit with application:

1. Dated sales receipt/invoice with install date and retailer/contractor name, address and phone number.
2. Itemized listing of quantity, description, manufacturer, model number and other identifying information as appropriate.
3. Manufacturer's equipment specification sheet.
4. A current copy of the Rocky Mountain Power utility bill for the address where the item(s) are installed.

Prequalification Required? No.

<u>Equipment Code</u>	<u>Incentive</u>
RRCFES	\$ 20 / unit

COMMERCIAL DISHWASHER

Measure Description: Commercial dishwashers are designed to clean and sanitize dishes, utensils and cookware. High efficiency commercial dishwashers on average are 25% more efficient when compared with standard-efficiency models and can significantly reduce annual energy costs.

Applicability: New construction and retrofit installations are eligible for incentives via a post-purchase application.

Equipment Eligibility: Equipment must be purchased and installed on or after October 1, 2011, and meet all other program terms and conditions. Incentives are available for equipment that is ENERGY STAR qualified. Dishwasher must use electrically heated domestic hot water. Models with electric or gas booster heaters are eligible for incentives.

For a list of qualified equipment visit: www.energystar.gov

A list of qualifying products is available on the ENERGY STAR website at:
http://www.energystar.gov/ia/products/prod_lists/comm_dishwashers_prod_list.xls

Items to submit with application:

1. Dated sales receipt/invoice with install date and retailer/contractor name, address and phone number.
2. Itemized listing of quantity, description, manufacturer, model number and other identifying information as appropriate.
3. Manufacturer’s equipment specification sheet.
4. A current copy of the Rocky Mountain Power utility bill for the address where the item(s) are installed.

Prequalification Required? No.

<u>Equipment Code</u>	<u>Efficiency Requirements</u>	<u>Equipment Category</u>	<u>Incentive</u>
DWECUN		Under Counter	\$500 / unit
DWECRS	ENERGY STAR Qualified	Stationary Rack, Single Tank, Door Type	\$1,000 / unit
DWESTC		Single Tank Conveyor	\$1,500 / unit
DWEMTC		Multiple Tank Conveyor	\$2,000 / unit

COMMERCIAL ICE MACHINES (AIR-COOLED ONLY)

Measure Description: Commercial ice machines combine a condensing unit and ice-making unit to produce ice. High-efficiency commercial ice machines on average are 15% more efficient when compared to standard efficiency units and can significantly reduce annual energy costs.

Applicability: New construction and retrofit installations are eligible for incentives via a post-purchase application.

Equipment Eligibility: Equipment must be purchased and installed on or after October 1, 2011, and meet all other program terms and conditions. Two tiers of incentives are available: first, equipment that is ENERGY STAR qualified and second, equipment that is Consortium for Energy Efficiency (CEE) Tier 3 qualified.

For a list of qualified equipment visit: www.energystar.gov and www.cee1.org

A list of qualifying products is available on the ENERGY STAR website at:
http://www.energystar.gov/ia/products/prod_lists/ice_machines_prod_list.xls

A list of qualifying products is available on the CEE website at:
<http://www.cee1.org/com/com-kit/files/IceSpecification.pdf>

Items to submit with application:

1. Dated sales receipt/invoice with install date and retailer/contractor name, address and phone number.
2. Itemized listing of quantity, description, manufacturer, model number and other identifying information as appropriate.
3. Manufacturer’s equipment specification sheet.
4. A current copy of the Rocky Mountain Power utility bill for the address where the item(s) are installed.

Prequalification Required? No.

<u>Equipment Code</u>	<u>Efficiency Requirement</u>	<u>Equipment Category</u>	<u>Incentive</u>
IMAST1	ENERGY STAR Qualified	<500 lbs/day	\$125 / unit
IMAST2	CEE Tier 3 Qualified		\$250 / unit
IMALT1	ENERGY STAR Qualified	≥500 lbs/day	\$150 / unit
IMALT2	CEE Tier 3 Qualified		\$400 / unit

COMMERCIAL GLASS-DOOR REFRIGERATORS

Measure Description: High-efficiency glass-door refrigerators are better insulated and contain more efficient refrigeration systems. ENERGY STAR qualified refrigerators, on average, are 20% more efficient than the minimum federal standard, resulting in considerable energy savings.

Applicability: New construction and retrofit installations of both chest configuration and vertical glass-door refrigerators are eligible for incentives via a post-purchase application.

Equipment Eligibility: Equipment must be purchased and installed on or after October 1, 2011, meet all other program terms and conditions, and be an ENERGY STAR qualified commercial refrigerator. The incentive amount is determined by the interior volume (V), as calculated by the Association of Home Appliance Manufacturers (AHAM) Standard ANSI/AHAM HRF-1-2004.

For further information on glass-door refrigerators visit: www.energystar.gov

A list of qualifying products is available on the ENERGY STAR website at: www.energystar.gov/ia/products/prod_lists/commer_refrig_prod_list.xls

Items to submit with application:

1. Dated sales receipt/invoice with install date and retailer/contractor name, address and phone number.
2. Itemized listing of quantity, description, manufacturer, model number and other identifying information as appropriate.
3. Manufacturer’s equipment specification sheet.
4. A current copy of the Rocky Mountain Power utility bill for the address where the item(s) are installed.

Prequalification Required? No, prequalification is not required for glass-door refrigerators. Prequalification is required for equipment that is not listed in the incentive tables.

<u>Equipment Code</u>	<u>Measure Description</u>	<u>Equipment Size (ft³)</u>	<u>Incentives</u>
CMGDRF	Commercial Glass-Door Refrigerator	0 < V < 15	\$ 100 / unit
		15 ≤ V < 30	\$ 125 / unit
		30 ≤ V < 50	\$ 150 / unit
		V ≥ 50	\$ 175 / unit
CMGCHR	Chest Configuration	All	\$ 75 / unit

COMMERCIAL GLASS-DOOR FREEZER

Measure Description: High-efficiency glass-door freezers are better insulated and contain more efficient refrigeration systems. ENERGY STAR qualified freezers, on average, are 20% more efficient than the minimum federal standard, resulting in considerable energy savings.

Applicability: New construction and retrofit installations of both chest configuration and vertical glass-door freezers are eligible for incentives via a post-purchase application.

Equipment Eligibility: Equipment must be purchased and installed on or after October 1, 2011, meet all other program terms and conditions, and be an ENERGY STAR qualified commercial freezer. The incentive amount is determined by the interior volume (V), as calculated by the Association of Home Appliance Manufacturers (AHAM) Standard ANSI/AHAM HRF-1-2004.

For further information on glass-door freezers, please visit: www.energystar.gov

A list of qualifying products is available on the ENERGY STAR website at: www.energystar.gov/ia/products/prod_lists/commer_refrig_prod_list.xls

Items to submit with application:

1. Dated sales receipt/invoice with install date and retailer/contractor name, address and phone number.
2. Itemized listing of quantity, description, manufacturer, model number and other identifying information as appropriate.
3. Manufacturer’s equipment specification sheet.
4. A current copy of the Rocky Mountain Power utility bill for the address where the item(s) are installed.

Prequalification Required? No, prequalification is not required for glass-door freezers. Prequalification is required for equipment that is not listed in the incentive tables.

<u>Equipment Code</u>	<u>Measure Description</u>	<u>Equipment Size (ft³)</u>	<u>Incentives</u>
CMGDFZ	Commercial Glass-Door Freezer	0 < V < 15	\$ 300 / unit
		15 ≤ V < 30	\$ 325 / unit
		30 ≤ V < 50	\$ 375 / unit
		V ≥ 50	\$ 800 / unit
CMGCHF	Chest Configuration	All	\$ 100 / unit

COMMERCIAL SOLID-DOOR REFRIGERATOR

Measure Description: High-efficiency solid-door refrigerators are better insulated and contain more efficient refrigeration systems. ENERGY STAR qualified refrigerators, on average, are 20% more efficient than the minimum federal standard, resulting in considerable energy savings.

Applicability: New construction and retrofit installations of both chest configuration and vertical solid-door refrigerators are eligible for incentives via a post-purchase application.

Equipment Eligibility: Equipment must be purchased and installed on or after October 1, 2011, meet all other program terms and conditions, and be an ENERGY STAR qualified commercial refrigerator. The incentive levels are determined by equipment size, based on the interior volume (V), as calculated by the Association of Home Appliance Manufacturers (AHAM) Standard ANSI/AHAM HRF-1-2004.

Incentives are available for vertical Commercial Solid-Door Refrigerators purchased prior to October 1, 2011. Please call 1-800-222-4335 for incentive information about equipment purchased prior to October 1, 2011.

For further information on solid-door refrigerators, please visit: www.energystar.gov

A list of qualifying products is available on the ENERGY STAR website at: www.energystar.gov/ia/products/prod_lists/commer_refrig_prod_list.xls

Items to submit with application:

1. Dated sales receipt/invoice with install date and retailer/contractor name, address and phone number.
2. Itemized listing of quantity, description, manufacturer, model number and other identifying information as appropriate.
3. Manufacturer’s equipment specification sheet.
4. A current copy of the Rocky Mountain Power utility bill for the address where the item(s) are installed.

Prequalification Required? No, prequalification is not required for solid-door refrigerators. Prequalification is required for equipment that is not listed in the incentive tables.

<u>Equipment Code</u>	<u>Measure Description</u>	<u>Equipment Size (ft³)</u>	<u>Incentives</u>
SDREFE	Commercial Solid-Door Refrigerator	$0 < V < 15$	\$ 50 / unit
		$15 \leq V < 30$	\$ 75 / unit
		$30 \leq V < 50$	\$ 100 / unit
		$V \geq 50$	\$ 125 / unit
SDCHRF	Chest Configuration	All	\$ 75 / unit

COMMERCIAL SOLID-DOOR FREEZER

Measure Description: High-efficiency solid-door freezers are better insulated and contain more efficient refrigeration systems. ENERGY STAR qualified freezers, on average, are 20% more efficient than the minimum federal standard, resulting in considerable energy savings.

Applicability: New construction and retrofit installations of both chest configuration and vertical solid-door freezers are eligible for incentives via a post-purchase application.

Equipment Eligibility: Equipment must be purchased and installed on or after October 1, 2011, meet all other program terms and conditions, and be an ENERGY STAR qualified commercial freezer. The incentive levels are determined by equipment size, based on the interior volume (V), as calculated by the Association of Home Appliance Manufacturers (AHAM) Standard ANSI/AHAM HRF-1-2004.

Incentives are available for vertical Commercial Solid-Door Freezers purchased prior to October 1, 2011. Please call 1-800-222-4335 for incentive information about equipment purchased prior to October 1, 2011.

For further information on solid-door freezers, please visit: www.energystar.gov

A list of qualifying products is available on the ENERGY STAR website at: www.energystar.gov/ia/products/prod_lists/commer_refrig_prod_list.xls

Items to submit with application:

1. Dated sales receipt/invoice with install date and retailer/contractor name, address and phone number.
2. Itemized listing of quantity, description, manufacturer, model number and other identifying information as appropriate.
3. Manufacturer’s equipment specification sheet.
4. A current copy of the Rocky Mountain Power utility bill for the address where the item(s) are installed.

Prequalification Required? No, prequalification is not required for solid-door freezers. Prequalification is required for equipment that is not listed in the incentive tables.

<u>Equipment Code</u>	<u>Measure Description</u>	<u>Equipment Size (ft³)</u>	<u>Incentives</u>
SDFRZE	Commercial Solid-Door Freezer	0 < V < 15	\$ 150 / unit
		15 ≤ V < 30	\$ 175 / unit
		30 ≤ V < 50	\$ 200 / unit
		50 ≤ V	\$ 300 / unit
SDCHFZ	Chest Configuration	All	\$ 150 / unit

REFRIGERATED BEVERAGE VENDING MACHINE

Measure Description: Commercial refrigerators that cool bottles or canned beverages and dispense the bottles or canned beverage on payment. High-efficiency refrigerated beverage vending machines are better insulated and contain more efficient refrigeration systems, resulting in greater energy savings.

Applicability: New construction and retrofit installations of refrigerated beverage vending machines purchased and installed prior to August 31, 2012 are eligible for incentives via a post-purchase application.

Equipment Eligibility: Equipment must be purchased and installed on or after October 1, 2011, meet all other program terms and conditions, and use less than the Maximum Daily Energy Consumption (MDEC), tested in accordance with ASTM, as outlined below:

Class A: A refrigerated bottled or canned beverage vending machine that is fully cooled, and is not a combination vending machine

$$\text{Class A MDEC} = 0.055 \times V + 2.56$$

Class B: Any refrigerated bottled or canned beverage vending machine that is not considered to be Class A, and is not a combination vending machine

$$\text{Class B MDEC} = 0.073 \times V + 3.16$$

V=Volume

Items to submit with application:

1. Dated sales receipt/invoice with install date and retailer/contractor name, address and phone number.
2. Itemized listing of quantity, description, manufacturer, model number and other identifying information as appropriate.
3. Manufacturer’s equipment specification sheet.
4. A current copy of the Rocky Mountain Power utility bill for the address where the item(s) are installed.

Prequalification Required? No, prequalification is not required for refrigerated beverage vending machine. Prequalification is required for equipment that is not listed in the incentive tables.

<u>Equipment Code</u>	<u>Measure Description</u>	<u>Incentives</u>
BEVMAC	High Efficiency Refrigerated Beverage Vending Machine	\$ 150 / Unit

LED CASE LIGHTING

Measure Description: Fixtures within refrigerated reach-in display cases are used to display refrigerated products. Replacing existing fluorescent lighting with energy-efficiency LED light bars reduces total lighting wattage and heat gain in the refrigerated space.

Applicability: Retrofit projects only may be eligible for incentives. LED technology must replace fluorescent lamps.

Equipment Eligibility: Equipment must be purchased and installed on or after October 1, 2011, and meet all other program terms and conditions.

Items to Submit with the Incentive Application:

1. Dated sales receipt/invoice with install date and retailer/contractor name, address and phone number.
2. A copy of the product specifications.
3. A current copy of the Rocky Mountain Power utility bill for the address where the item(s) are installed.

Prequalification Required? No. Incentives are available via a post-purchase incentive application process. Applying prior to placing purchase orders is recommended but not required.

<u>Equipment Code</u>	<u>Measure Description</u>	<u>Incentive</u>
LEDCLR	LED Case Lighting	\$10/Linear Foot
