

# Wildfire Safety and Prevention

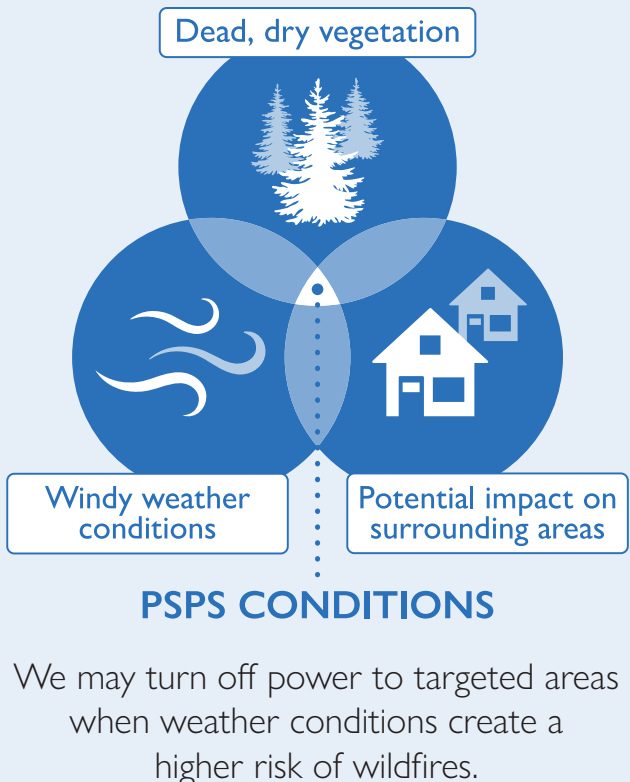

At Rocky Mountain Power, your safety is our top priority. In addition to hardening our system, we've upgraded our power equipment with settings and devices to help prevent wildfires. Monitoring conditions and risk in real-time allows us to take action where needed.

## TAKING ACTION TO PREVENT WILDFIRE

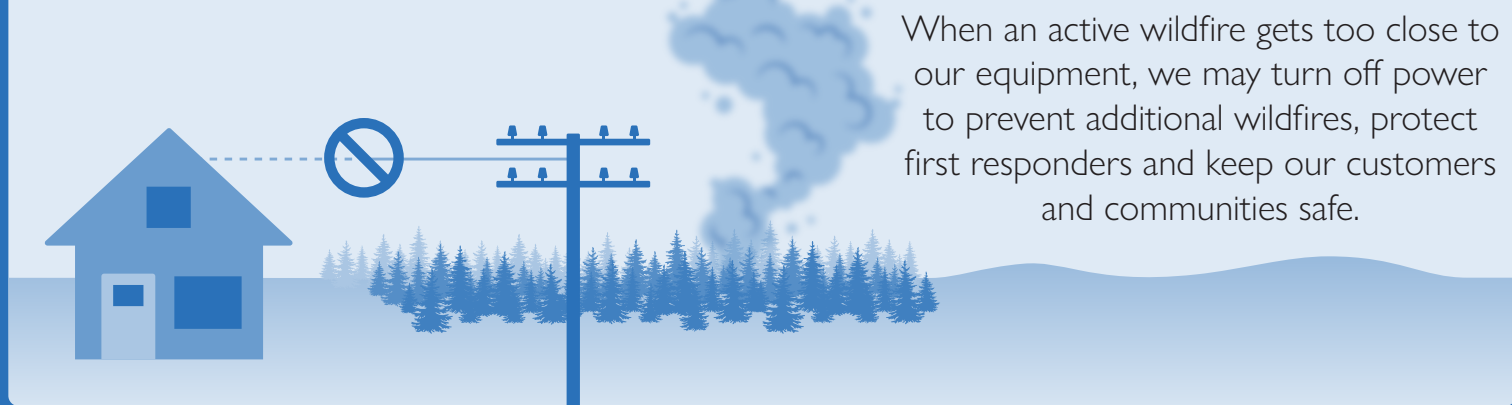

### Enhanced Safety Settings

### Public Safety Power Shutoff

### Emergency De-Energization

## STAY SAFE, ALERT AND INFORMED

- Update your contact information and sign up for alerts at [RockyMountainPower.net/Alerts](https://RockyMountainPower.net/Alerts) or call 1-888-221-7070.
- We will send important safety information via text, phone and email based on your preferences.
