

Wildfire safety checklist

Safety is a community effort that takes all of us working together. As we're taking steps to reduce wildfire risks wherever possible, it's important that you also take action at home.

Use the following checklist to make sure you and your family are prepared for wildfire season, and double-check that your contact information with Rocky Mountain Power is up-to-date so you can stay informed.

Prepare your home

Just as we're clearing plants and trees away from power lines, it's important for you to create a defensible space around your property.

- □ **ZONE** 1: The 30-foot area closest to your home should contain only low-growing plants such as annual flowers, succulents and well-tended lawns, reducing fuel for a potential fire.
- □ **ZONE 2:** Between 30 and 100 feet from your home, stick to well-spaced trees and shrubs and islands of plants surrounded by rocks or landscaping bricks.
- □ **ZONE 3:** Beyond 100 feet, reduce fire fuel by thinning and pruning trees and other vegetation.

Create an emergency supply kit
