RE: Docket No. 14-035-114 - In the Matter of the Investigation of the Costs and Benefits of PacifiCorp's Net Metering Program
Compliance Filing – Status Report on Level 3 Queue Management System

On March 2, 2018, Rocky Mountain Power (“the Company”) filed a Motion for Emergency Waiver of Level 3 Interconnection Review Processing Timeframes (“Motion”). The Company requested immediate relief from the processing timeframes and recommended working with interested parties in developing a queue management system for the level 3 interconnection review process. The Motion was granted, in part, by the Public Service Commission of Utah (“Commission”) on March 21, 2018, which provided the Company a 30-day extension of the existing timelines in R746-312-10(f)(iii) for a period of six months from the date of the order. The Commission order also required the Company to work with the Division of Public Utilities (“DPU”) and other interested parties to develop a queue management system (“QMS”) and related procedures and either submit that system for Commission consideration, or provide a status update on the activities and progress of the process, within 45 days of the order.

On May 2, 2018, the Company filed a status report on the development of a level 3 QMS informing the Commission that the Company, DPU and interested parties were scheduled to meet on May 14, 2018 for a level 3 QMS workshop. In the status report, the Company committed to file no later than June 6, 2018 either the agreed-upon QMS or another status report, informing the Commission of the status of the activities and progress of the process. In accordance with that commitment, the Company submits this update on the parties’ progress.

At the May 14, 2018 level 3 QMS workshop, the Company presented a straw proposal, and the parties engaged in a collaborative discussion. At the end of the workshop, the parties determined that additional time would be beneficial to address some of the questions raised in the workshop. An informal schedule was established to facilitate a process where the parties could submit feedback to the Company, and the parties agreed to target July 10, 2018 for filing the agreed-upon QMS. The prospect of a collaborative level 3 QMS appears promising at this point in the process. In the event the QMS is not developed in time for a July 10, 2018 target filing, the Company will file an additional report to update the Commission on the status of the discussions.

Rocky Mountain Power appreciates the parties’ participation in this matter. Questions may be directed to Jana Saba at (801) 220-2823.
