

**ROCKY MOUNTAIN POWER  
ELECTRIC SERVICE SCHEDULE NO. 111**

**STATE OF UTAH**

---

**Residential Energy Efficiency**

---

**PURPOSE:** Service under this tariff is intended to maximize the efficient utilization of the electricity requirements of new and existing residential loads in new and existing residences including manufactured housing and multi-family dwellings.

**APPLICABLE:** To new and existing residential customers in all territory served by the Company in the state of Utah billed on residential Schedules listed on Schedule 193 or connected to a customer electrical system receiving single point of delivery service from the Company under a retail rate schedule. Landlords who own rental properties served by the company in the state of Utah where the tenant is billed on residential service Schedules also qualify for this program.

**CUSTOMER PARTICIPATION:** Customer participation is voluntary and is initiated by following the participation procedures listed on the program web site.

**DESCRIPTION:** On-going program to deliver incentives for a variety of equipment and services intended for and located in residential dwellings. The program will be delivered by the Program Administrator. Company will provide incentives listed in the tables below for Qualifying Equipment or Services. Periodic changes will be made to incentives listed in the tables below to ensure and/or enhance program cost effectiveness.

**QUALIFYING EQUIPMENT OR SERVICES:** Equipment or services listed in the tables below for residential dwellings, which when correctly installed or performed, result in verifiable electric energy usage reductions where such usage is compared to the existing equipment or baseline equipment as determined by the Company.

**PROGRAM ADMINISTRATOR:** Qualified person or entity hired by the Company to administer this program.

**PROVISIONS OF SERVICE:**

1. Qualifying Equipment or Services, incentive amounts, application forms and detailed participation procedures will be listed on the program web site, accessible through the Company's web site at [www.rockymountainpower.net](http://www.rockymountainpower.net) or by calling 1-888-221-7070. Incentives and Qualifying Equipment and Services are also listed in the tables below.
2. Incentive delivery may vary by technology, and may include any or all of the following: post purchase mail-in, point of purchase buy down, retailer mark-down, mail-by request, direct install or pre-purchase offer and approval.
3. Incentives may be offered year round or for selected time periods.
4. Incentive offer availability, incentive levels and Qualifying Equipment or Services may be changed by the Program Administrator after consultation with the Company to reflect changing codes and standards, sales volumes, measure costs, quality assurance data or to enhance program cost effectiveness.
5. Incentives and qualifications are subject to Public Service Commission of Utah approval. "Up to" incentive levels may change with a minimum 45 days' notice, which will be prominently displayed on the program website and will be communicated at least once to retailers and trade allies who have participated in the program within one year preceding the date of the change.
6. "Subject to change with 45 days' notice" language will be included on all web pages containing an incentive offer.
7. Customers have 180 days after the date of purchase or installation to submit a complete post purchase application and request an incentive.
8. Except for manufacturer's buy-downs, incentives paid directly to participants will be within 45 days of Program Administrator's receipt of a complete and approved incentive application. Incentives available for customers will only be paid to customers or verified property owners, landlords, property management companies, pre-approved Utah Department of Workforce Services, Housing & Community Development Division's (HCDD) Weatherization Assistance Program (WAP) contractors, or homeowner associations as third party entities responsible for project. WAP contractors are only eligible to receive incentive payments for insulation, windows, and duct sealing/insulation measures. WAP contractors can only receive incentives for WAP-approved projects.
9. Manufacturers, retailers, contractors, and dealers who provide or market program services will be required to sign and abide by the terms of participation agreements.
10. Equipment and services receiving an incentive under this program are not eligible for equipment purchase incentives under other Company programs. Equipment and services receiving an equipment purchase incentive under other Company programs are not eligible for incentives under this program.

**ELECTRIC SERVICE SCHEDULE NO. 111 - Continued**

11. Company and/or Program Administrator will employ a variety of quality assurance techniques during the delivery of the program. They may differ by equipment or service type and may include, but are not limited to, pre and post installation site inspections, phone surveys, retailer invoice reconciliations, confirmation of customer and equipment eligibility, and confirmation of incentives received through other utility programs.
12. Company may verify or evaluate the energy savings of installed equipment or services. Verification or evaluation may include, but are not limited to, telephone survey, site visit, billing analysis, and pre- and post-installation of monitoring equipment as necessary to quantify actual energy savings.
13. Customers with both electric heat and electric cooling are only eligible for electric heat incentives where both apply.
14. Measures that do not distinguish between electric heat and electric cooling apply to customers with either.
15. For measures that do not have a self-install specific incentive, equipment may be self-installed or installed by a qualified Trade Ally, per program requirements, to be eligible for an incentive.
16. Measures that do not distinguish between single/multi-family and manufactured homes apply to all three.
17. Customer's applying for electric heat incentives must have a permanently installed all-electric heat system serving at least 80% of the home's conditioned floor area and used as the primary heat source of the residence.
18. Customer's applying for electric cooling incentives must have a permanently installed ducted system that serves at least 80% of the home's conditioned floor area.
19. Non-lighting incentives are capped at up to 70 percent of qualifying equipment costs. Qualifying equipment costs are subject to Company approval.

**ELECTRIC SERVICE REGULATIONS:** Service under this schedule will be in accordance with the terms of the Electric Service Agreement between the Customer and the Company. The Electric Service Regulations of the Company on file with and approved by the Utah Public Service Commission, including future applicable amendments, will be considered as forming a part of and incorporated in said Agreement.
