Docket No. 20000-520-EA-17
Record No. 14781

**RE: IN THE MATTER OF THE APPLICATION OF ROCKY MOUNTAIN POWER
FOR CERTIFICATES OF PUBLIC CONVENIENCE AND NECESSITY AND
NONTRADITIONAL RATEMAKING FOR WIND AND TRANSMISSION FACILITIES
– Compliance Filing (Quarterly Easement Status Update)**

Dear Mr. Petrie:

Pursuant to the Wyoming Public Service Commission's ("Commission") order issued on October 8, 2018, in this docket, please find enclosed the quarterly landowner easement / lease acquisition status update for Rocky Mountain Power's ("Rocky Mountain Power" or the "Company") seven conditional Certificates of Public Convenience and Necessity ("CPCN"). Attachment 1 includes line item status updates for individual landowners, without the individual landowner names to protect ongoing highly confidential negotiations.

The Company has acquired and filed the necessary rights-of-way documents and obtained Commission approval to begin construction for six of the seven CPCN projects. The Cedar Springs Wind Project CPCN is the sole project remaining and the Company expects to file the necessary rights-of-way documents in June 2019.

Regarding the Commission's request for a progress report between the Company and Rocky Mountain Sheep Company ("RMSC"), the Company gave an extensive update at the April 9, 2019 open meeting and the status from that update remains unchanged.

The Company is pleased to report the Energy Vision 2020 projects remain on-track for completion by the end of 2020 and will be submitting monthly construction progress reports as required by the Commission's rules.

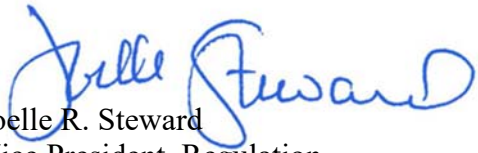

Please contact Stacy Splittstoesser, Wyoming Regulatory Affairs Manager at (307) 632-2677 if you have any questions or would like additional information.
