Anadarko Response to Rocky Mountain Power Data Request 1.2

March 2018

20000-520-EA-17 / Anadarko Land Corp.
January 2, 2018
Rocky Mountain Power Data Request 1.2

RMP Data Request No. 1.2.

Please provide the number of coal lease agreements that Anadarko entered into from 2015 through present date.

ANADARKO RESPONSE TO RMP DATA REQUEST NO. 1.2

Anadarko objects to this Data Request as ambiguous and overbroad. As written, the RMP Data Request seeks the number of all coal lease agreements entered into by Anadarko at any location. Notwithstanding the above objection, Anadarko responds that it entered into one lease agreement for 1,800 acres after January 1, 2015 that includes land affected by the proposed Transmission Line Project or within one mile of the proposed right-of-way for the transmission line. Anadarko has several coal lease agreements in the areas described for the Wind Projects but the RMP Application describes proxy Wind Projects without sufficient land description for Anadarko to provide an exact number of agreements entered into after 2015 and included within the boundaries of the Wind Projects.
