Docket No. 20000-520-EA-17  
Record No.14781

**RE: IN THE MATTER OF THE APPLICATION OF ROCKY MOUNTAIN POWER  
FOR CERTIFICATES OF PUBLIC CONVENIENCE AND NECESSITY AND  
NONTRADITIONAL RATEMAKING FOR WIND AND TRANSMISSION FACILITIES  
– Compliance Filing (Required Rights-of-Way – Supplemental Filing No. 1)**

---

Dear Mr. Petrie:

As outlined in Rocky Mountain Power's ("the Company") March 7, 2019 compliance filing cover letter, the Company is submitting additional rights-of-way/easements obtained at this point in time necessary for the construction of the Aeolus-to-Bridger/Anticline 500 kilovolt ("kV") transmission line ("Aeolus-to-Bridger/Anticline Line CPCN") and the transmission network upgrades for the TB Flats I and II wind project ("TB Flats I and II Network Upgrades CPCN"), the Ekola Flats wind project ("Ekola Flats Network Upgrades CPCN") and the Cedar Springs wind project ("Cedar Springs Network Upgrades CPCN"). The Company is making this supplemental filing to allow Commission staff adequate time to review and facilitate approval to begin construction of these facilities as early as possible in April 2019.

Confidential Attachment 1A includes a complete list and copies of additional required rights-of-way/easements that have been obtained to date for the Aeolus-to-Bridger/Anticline Line CPCN. Please note that the necessary rights-of-way required for the network upgrades to interconnect the Ekola Flats Wind Project (the "Ekola Flats Network Upgrades CPCN") are included in the Aeolus-to-Bridger/Anticline Line CPCN package, as all interconnection work for that project is included within the new Aeolus substation footprint.

Attachment 2A includes a complete list and copies of the additional required rights-of-way/easements that have been obtained to date for the TB Flats I and II Network Upgrades CPCN.

Attachment 3A includes a complete list and copies of the additional required rights-of-way/easements that have been obtained to date for the Cedar Springs Network Upgrades CPCN.

Page 2

As noted in the Attachments 1A-3A, there are a limited number of necessary rights-of-way documents outstanding and in some instances signed authorization letters reflecting an agreement in principle for those rights-of-way have been submitted as placeholders. The Company will submit the outstanding documents in an additional supplemental filing once obtained.

**When all of the rights-of-way/easement documents have been submitted, the Company respectfully requests scheduling these CPCN projects to be presented at the earliest possible open meeting date to lift the conditional aspect of the CPCNs in order to start construction of the respective projects as early as possible.**

Please contact Stacy Splittstoesser, Wyoming Regulatory Affairs Manager at (307) 632-2677 if you have any questions or would like additional information.

Sincerely,

Joelle R. Steward  
Vice President, Regulation
