**RE: Compliance Filing, Tariff Rule 7
Docket No. 20000-569-ET-19, Record No. 15354**

Dear Mr. Petrie:

Pursuant to the Wyoming Public Service Commission (“Commission”) decision from the January 7, 2020 open meeting for this docket, please find enclosed the tariff sheets that include the additional language requested by Commission staff within Section VI.B. The effective date will be January 7, 2020.

Informal questions may be directed to Stacy Splittstoesser, (307) 632-2677.

Sincerely,

Joelle R. Steward
Vice President, Regulation

Enclosures

ROCKY MOUNTAIN POWER

~~First~~Second Revision of Sheet No. R7-6
Canceling ~~Original~~First Revision of Sheet No. R7-6

P.S.C. Wyoming No. 16

Metering Rule 7

V. Demand Pulse Access (continued)

- E. The Company may interrupt the supply of pulse information to perform meter tests or other maintenance, after giving the Customer 24 hours' notice. The Company is not responsible for the effect on the Customer's operations or equipment.
- F. The Company may disconnect the Demand Pulse Relay equipment if the equipment should ever interfere with the Company's metering reliability or metering practices. The Company will give the Customer 24 hours' notice.

VI. Unmetered Service

A. Fixed Loads

When it benefits both the Customer and the Company, the Company may furnish unmetered service. The Company will furnish unmetered service only to fixed loads with fixed periods of operation, such as traffic lights. The Company will determine the average monthly use either by test or an estimate based on equipment ratings.

B. Small Usage Devices

Devices whose total connected load does not exceed 2,000 watts per point of connection may be provided unmetered service if, at the sole discretion of the Company, usage is impractical or unsafe to meter. The monthly kWh billed each month for such small usage devices shall be determined as the total kW capacity requirement of the Customer's equipment multiplied by 730 hours. The capacity requirement shall be stated on the Customer's application for service. Connection to Company's system will be made by Company, subject to Customer's installation meeting all of Company's design and installation requirements.

Metering Rule 7

VI. Unmetered Service

B. Small Usage Devices (continued)

The Customer shall not change the capacity requirement or other aspects of their installation without first notifying the Company in writing a minimum of 30 days before changes are made. Customer's changes that render the service ineligible for unmetered service shall result in service being metered. Under such circumstances, Company approved metering point(s) must be installed by Customer within 30 days following notification or service will be disconnected.

The Company shall not be required to adjust billings due to failure of Customer's equipment. The Company shall have the right to test the capacity requirements of small usage devices from time to time. If the Company determines that the capacity was under-reported by the Customer or that the Customer otherwise failed to notify the Company of an increase in capacity, the Company may backbill for the incremental kWh associated with such increased capacity back to the date that service was first furnished or the date of the last capacity test, whichever is later.
