## Street Lighting Service Company-Owned System Schedule 51

---

### Special Conditions

1. Installation, daily operation, repair and maintenance of lights on the rate schedule to be performed by the Company, providing that the facilities furnished remain readily accessible for maintenance purposes.
2. Company will install only Company approved street lighting equipment at locations acceptable to Company.
3. Inoperable lights will be repaired as soon as reasonably possible, during regular business hours or as allowed by the Company's operating schedule and requirements, provided the Company receives notification of inoperable lights from the Customer or a member of the public by either notifying Rocky Mountain Power's customer service center (1-888-221-7070) or use the online reporting tool at [www.Rockymountainpower.net/streetlights](http://www.Rockymountainpower.net/streetlights). Rocky Mountain Power's obligation to repair street lights is limited to this tariff.
4. Existing fixtures and facilities that are deemed irreparable will be replaced with comparable fixtures and facilities from the Company's Construction Standards.

### Special Conditions *(continued)*

5. The Company will, upon written request of Customer, convert existing street lighting facilities to other types of Company approved facilities. In such event, if the revenue should increase, the streetlighting extension allowance defined in Rule 12 is applicable only to the increase in annual revenue due to the replacement. If there is no increase in revenue, there is no allowance. The Customer shall advance the estimated installation and removal costs, less the estimated salvage on the removed facilities, in excess of the applicable allowance.
6. The entire system, including initial lamp requirements and wiring suitable for connection to Company's system, will be furnished and installed by the Company. The Customer is responsible for all associated costs that exceed the Street Lighting Extension Allowance as described in the Rule 12 of this tariff. Customer shall not perform the electrical connection of meters or service conductor to the point of delivery.
7. Temporary disconnection and subsequent reconnection of electrical service requested by the Customer shall be at the Customer's expense. The Customer may request temporary suspension of power by written notice. During such periods, the monthly rate will be reduced by the Company's estimated average energy costs for the lamp. The facilities may be considered idle and may be removed after 12 months of inactivity.
8. Where approved by the company, all pole mounted outlets used for holiday or other decorations will be supplied with service on a metered General Service rate via a Customer-installed meter base.

### Special Conditions (continued)

9. Pole re-painting, when requested by the Customer and not required for safety reasons, shall be done at the Customer's expense using the original pole color.
10. Glare or vandalism shielding, when requested by the Customer and subject to availability, shall be installed at the Customer's expense. In cases of repetitive vandalism, the Company may notify the Customer of the need to install vandal shields at the Customer's expense, or otherwise have the lighting removed.

### Term of Contract

Not less than five (5) years for both new and replacement fixtures. After the term of the contract, the Customer can request removal of lights with two months written notice, and the Customer will be charged with the costs of removal. If the lights are removed before the contract term, the Customer is responsible for the cost of removal and depreciated remaining life of the assets less any salvage value.

### Rules

Service under this Schedule is subject to the General Rules contained in the tariff of which this Schedule is a part, and to those prescribed by the Wyoming Public Service Commission.
