Second Revision of Sheet No. 58-1  
Canceling First Revision of Sheet No. 58-1

P.S.C. Wyoming No. 17

## Street Lighting Service Customer-Owned System Schedule 58

---

### Available

In all territory served by the Company in the State of Wyoming.

### Applicable

To lighting service provided to municipalities or agencies of municipal, county, state, or federal governments for dusk to dawn illumination of public streets, highways, and thoroughfares by means of Customer owned street lighting systems controlled by photoelectric control or time switch.

### Monthly Billing

The Monthly Billing shall be calculated according to the per kWh rate specified below plus applicable adjustments in accordance with Schedules 93, 95, 191, 197, and 198. The cost will be calculated for 4,167 annual hours of operation including applicable loss factors for ballasts and starting aids. Service includes energy supplied from Company's overhead or underground circuits and does not include any maintenance to Customer's facilities. Maintenance service will be provided only as indicated in the Maintenance Service section below.

	<u>Delivery</u>	<u>Transmission</u>	<u>Generation (Non ECAM)</u>	<u>Total</u>
Energy Only – per kWh	0.762¢	0.466¢	1.168¢	2.396¢

### Maintenance Service (No New Service)

Where the utility operates and maintains the system, a flat rate equal to one-twelfth the estimated annual cost for operation and maintenance will be added to the Energy Only Service rates listed above. Monthly Maintenance is only applicable for existing monthly maintenance service agreements in effect prior to May 24, 2009.

### Special Conditions

1. The Company will not maintain new Customer owned street lights. Such maintenance will be the responsibility of the Customer; however, the Company may install pole identification tags for the purposes of tracking unmetered Customer owned lights.

## Street Lighting Service Customer-Owned System Schedule 58

---

### Special Conditions *(continued)*

2. Customer owned lights, mounted to Company owned distribution poles, shall be installed, maintained, transferred or removed only by qualified personnel. Appurtenances or other alterations to the Company's standard will not be supported by, or become the responsibility of, the Company. Following notification by the Customer, inoperable lights under this provision will be repaired as soon as possible, during regular business hours or as allowed by Company's operating schedule and requirements. Costs described in this provision will be invoiced to the Customer upon completion of the work.
3. The entire system, including the design of facilities, installation of fixtures on Customer poles, and wiring suitable for connection to Company's system, will be furnished by the Customer. Electrical connections to Company facilities shall be performed by Company personnel or Company contractors.
4. Customer must notify the Company in writing of any changes to the street lighting system which would affect billing, including new installations, removals or wattage changes. Standard Notification procedure will be through online forms at [www.rockymountainpower.net/streetlights](http://www.rockymountainpower.net/streetlights).
5. All new underground-fed lights on this schedule will require a Customer installed means of disconnect acceptable to both the Company and the local electrical inspecting authority.
6. Temporary disconnection and subsequent reconnection of electrical service requested by the Customer shall be at the Customer's expense. If attached to company facilities, customer lights may be considered idle and be removed by the company after 12 months, at customer's expense.
7. Where approved by the Company, all pole mounted outlets used for holiday or other decorations as well as traffic or other signal systems, will be supplied with service on a metered General Service rate schedule via a Customer-installed meter base.
