*Custom means an electric energy-saving measure that is not specifically listed but meets the minimum efficiency levels on the lists, or is part of your industrial process.

**Available to customers receiving electric service on rate schedules 6, 6A, 7, 7A, 9, 10, 12, 19, 23, 23A, 24, 35 or 35A located in Idaho.

***Caps and limits may apply.

Instant Incentives for lighting

Rocky Mountain Power's wattsmart Business is offering instant incentives for qualified LED lighting and reduced-wattage fluorescent lamps when purchased from a participating instant incentive distributor. The incentives are intended to help customers with routine maintenance and small improvements. If you're already working with a lighting vendor on a lighting project, please note that only one incentive is available per lamp. Discuss with your lighting vendor prior to accepting instant incentives from a distributor. Learn more at wattsmart.com.

Energy project manager co-funding

Rocky Mountain Power will co-fund the cost of a dedicated energy project manager for customers with an approved plan to save at least 1,000,000 kilowatt-hours annually through the wattsmart Business program. For details, contact wattsmartbusiness@rockymountainpower.net.

wattsmart Business Vendors

wattsmart Business Vendors are part of the local community and are companies you may already know. They understand our requirements and processes, and can show you the financial benefits of energy upgrades.

Premium Vendors specialize in lighting and are designated through high-quality participation in wattsmart Business.

Other Rocky Mountain Power business programs

Blue SkySM for business

Rocky Mountain Power's Blue Sky renewable energy program offers businesses an easy way to meet environmental goals, demonstrate leadership in the community, connect with customers and employees, and earn recognition. To learn more, visit rockymountainpower.net/blueskybiz.

Irrigation Load Control

Irrigators who choose to enroll in this program can earn valuable cash incentives for curtailing electricity during peak demand periods. To learn more, visit rockymountainpower.net/loadcontrol.

Energy Benchmarking

Resource Advisor is Rocky Mountain Power's energy benchmarking tool to deliver whole-building electrical usage data to ENERGY STAR[®] Portfolio Manager[®] every month. The tool helps customers better manage building performance and deliver energy savings. Learn more at rockymountainpower.net/benchmarking.

Energy Profiler Online

Our Energy Profiler Online program converts energy data into money-saving information. It monitors electricity consumption and converts it into easy to understand charts and graphs. Once enrolled, daily meter reads will be posted to a secure website for use at any time. Multiple meters are no problem. You pay a setup fee and a small monthly fee for the service. View a demo of the program at rockymountainpower.net/profiler.
