### Changes to Wattsmart Homes Program in Idaho

As part of the Company’s efforts for continual improvement, Rocky Mountain Power is planning changes to the Wattsmart Homes program in Idaho, effective January 1, 2022. As summarized in the table below, these changes include discontinuing incentives for LED bulbs and fixtures due to the market transformation and adoption of LED technology. **Any incentive amounts for current Program offerings that are not mentioned in the tables below will remain unchanged.** Existing incentive terms and conditions still apply. If you have questions or need additional information, please [contact us](#).

Lighting Incentives		
Equipment Type	Currently Offered Incentives	Offered Incentive Effective January 1, 2022
LEDs (Light Emitting Diodes) - General	≤ \$3/lamp	\$0 per lamp/fixture (Offerings Discontinued due to market adoption)
LED – Specialty	≤ \$3/lamp	
LED – Downlight	≤ \$3/lamp	
LED Fixture	≤ \$3/fixture	

It is the Company’s intent to make ongoing adjustments to the incentives for certain measures in response to market conditions (changes in material costs, product availability, price competition, etc.), and stay in alignment with the Company’s defined savings targets, incentive budget, and cost-effectiveness requirements.
