AN HVAC CHECK-UP CAN HELP TO:

Improve workplace comfort

Improve indoor air quality

Reduce maintenance and repair costs

Reduce energy costs

Much like your car needs regular maintenance to run smoothly, so does your business's HVAC equipment. Check on the health of your HVAC system — schedule a no-cost HVAC Check-Up today!

By taking the small step of scheduling a no-cost business HVAC Check-Up, you can save big on energy and repair costs through improvements identified in the assessment. According to ENERGY STAR®, heating and cooling accounts for 40-50% of energy used in businesses. Improving the maintenance of your HVAC equipment will reduce your energy costs. In addition, you're likely to experience improved comfort and productivity as well as reduced HVAC repair costs.

Rocky Mountain Power Wattsmart® Business provides HVAC Check-Up incentives to help offset costs of the simplest and most common HVAC system energy improvements. These include maintenance agreements, economizer repairs, refrigerant charges and upgraded thermostat installation.

How does it work?

Once you schedule a no-cost HVAC Check-Up with an approved contractor* you will receive a proper energy report of your facility, and a no-obligation quote for recommended upgrades, maintenance opportunities and available incentives. Here is an example of what that proposal might include:

AT A GLANCE – EXAMPLE PROJECT ECONOMICS	
HVAC maintenance agreement (3 year)	\$225
Thermostat upgrade and programming	\$500
Advanced rooftop unit controls	\$5,400
Annual anticipated electric cost savings	\$1,774 (19,712 kWh/yr)
Rocky Mountain Power incentive payment (applied to the project invoice)	-\$2,957
Out-of-pocket cost to you	\$3,170
Post-incentive project payback period	1.75 Years

You choose whether you want to proceed with some or all of the recommendations. If you decide to proceed, the contractor will complete all incentive paperwork. If you choose to assign your incentive to the contractor, they will pass-through 100% of the eligible incentive to you on their invoice.

Schedule your no-cost HVAC Check-Up today!

STEPS TO PARTICIPATE

Step 1: Schedule a free facility assessment with a Wattsmart® HVAC Check-Up Approved Contractor. To find an Approved Contractor, call us toll free at 1-866-870-3419 or email WattsmartBusiness@RockyMountainPower.net

Step 2: Review contractor recommendations and choose whether you want to move forward with any or all of the recommendations. Then submit a completed Wattsmart Business General Application and W-9. If you choose to assign your incentive to the contractor, they will pass-through 100% of the eligible incentive on their invoice to you and take care of the rest of the paperwork.*

Step 3: Approved Contractor installs your selected energy improvements. Rocky Mountain Power may request to inspect your improvements to verify energy savings and quality of installation.

Step 4: Pay the contractor the balance of your project cost.

Step 5: Enjoy energy savings, improved comfort and performance! With heating and cooling accounting for 40-50% of typical business energy use, you can rest assured that regular maintenance or improvements to your business HVAC system will positively impact your bottom line for years.

**Please note that only certain contractors are authorized to offer HVAC Check-Up incentives. To verify your contractor is approved, please contact Rocky Mountain Power at 1-866-870-3419. Rocky Mountain Power does not warrant the performance of qualifying installed equipment or the quality of the installation provided by the approved contractor. You are solely responsible for any contract with and the performance of any trade ally you have chosen to work with. Please note, that only one incentive is available per qualifying measure.*

This offer is available for non-residential facilities on Utah rate schedules 6, 6A, 6B, 8, 9, 9A, 23, and Supplementary Service under Schedule 31. Approved contractors will verify eligibility upon scheduling your HVAC Check-Up.

Eligibility is subject to change.
