

INCENTIVES FOR EXTERIOR LIGHTING SYSTEM RETROFITS

EXTERIOR LIGHTING CATEGORY		ELIGIBILITY REQUIREMENTS	SMALL CUSTOMER CATEGORY OFFERED INCENTIVE	MEDIUM CUSTOMER CATEGORY OFFERED INCENTIVE	LARGE CUSTOMER CATEGORY OFFERED INCENTIVE
New Fixture	Instant Incentive Alignment	Without controls	See Lighting Instant Incentives ⁴	See Lighting Instant Incentives ^{3, 4}	See Lighting Instant Incentives ^{3, 4}
		Exterior dimming controls	\$0.40/W Controlled + Lighting Instant Incentives ³	\$0.40/W Controlled + Lighting Instant Incentives ^{3, 4}	\$0.40/W Controlled + Lighting Instant Incentives ^{3, 4}
	Calculated Incentive	Without controls	\$0.35/W Reduced	\$0.25/W Reduced	See Note 2
		Exterior dimming controls	\$0.55/W Reduced	\$0.45/W Reduced	\$0.45/W Reduced
Retrofit Kits	Instant Incentive Alignment	Without controls	See Lighting Instant Incentives ^{3, 4}	See Lighting Instant Incentives ^{3, 4}	See Note 3
		Exterior dimming controls	\$0.40/W Controlled + Lighting Instant Incentives ^{3, 4}	\$0.40/W Controlled + Lighting Instant Incentives ⁴	\$0.40/W Controlled + Lighting Instant Incentives ^{3, 4}
	Calculated Incentive	Without controls	\$0.15/W Reduced	\$0.15/W Reduced	NA
		Exterior dimming controls	\$0.35/W Reduced	\$0.35/W Reduced	\$0.35/W Reduced
Street Lighting	Instant Incentive Alignment	Exterior dimming controls	\$0.40/W Controlled + Lighting Instant Incentives ^{3, 4}	\$0.40/W Controlled + Lighting Instant Incentives ^{3, 4}	\$0.40/W Controlled + Lighting Instant Incentives ^{3, 4}
	Calculated Incentive		\$0.35/W Reduced	\$0.35/W Reduced	\$0.35/W Reduced
Controls Only		Exterior dimming controls	\$0.40/W Controlled	\$0.40/W Controlled	\$0.40/W Controlled
Custom	Without controls		\$0.10/W Reduced	\$0.10/W Reduced	See Note 2
	Exterior dimming controls		\$0.30/W Reduced	\$0.30/W Reduced	\$0.30/W Reduced

Notes for exterior lighting system retrofit incentives:

1. To be eligible for the incentives listed, the new lighting system must use less energy than the existing lighting system being replaced or the baseline lighting system as determined by Rocky Mountain Power.
2. Large customers that elect to replace fixtures, but do not also install controls, may still be eligible to receive an incentive if they also complete a qualifying incentivized non-lighting project in conjunction with the lighting upgrade that Rocky Mountain Power approves instead of adding controls. For more information, see the application supplement for Lighting Controls Alternative Eligibility, or contact Rocky Mountain Power at 1-866-870-3419. Alternative eligibility options may include the following:
 - a. ARC
 - i. Identify the number of RTUs on building
 - ii. See ARC Supplemental Application for details
 - b. Other Non-Lighting Projects
 - i. Identify potential energy savings project, must describe project scope and savings potential
 - ii. For details, please contact Rocky Mountain Power at 1-866-870-3419.
3. Customers may receive incentives for qualified replacement lamps through a point of purchase incentive by purchasing from approved distributors, or by submitting a post-purchase application.
4. For the list of equipment with available Lighting Instant Incentives, see the Lighting Instant Incentives table. Where eligible for Lighting Instant Incentives as part of a retrofit project, Lighting Instant Incentive quantity limits do not apply.
5. Incentives are capped at 70 percent of energy efficiency project costs and are not available to reduce the energy efficiency project simple payback below one year. Energy efficiency project costs are subject to approval by Rocky Mountain Power.
6. Eligible retrofit lighting equipment is defined in qualified equipment lists posted on the Utah energy efficiency section at Wattsmart.com.
7. Per International Energy Conservation Code 2018 (IECC 2018) and program requirements, parking garages and areas under parking decks are considered interior spaces. Top decks are considered exterior spaces.
8. The Customer or Owner may receive only one financial incentive from Rocky Mountain Power per measure. Incentives listed in the table above and cannot be combined with incentives received either through the point of purchase Lighting Instant Incentive offer or the Home Energy Savings program.
9. Energy savings are subject to approval and are offered at Rocky Mountain Power's discretion. Energy Efficiency Project costs are subject to Rocky Mountain Power approval. Certain lighting technologies/upgrades have been deemed ineligible for incentives.
10. Exterior fixtures operating schedules are considered dusk to dawn. Any other operating schedule must be documented and verified.
11. In cases where controls are required for eligibility, and there are existing controls, new control strategies must result in higher savings than the existing controls system in order to qualify for incentives. This can be achieved by replacing or adding to the existing controls system.
12. Basic controls for Large segment customers must be networked, continuously dimming, and addressable. Addressability does not have to be on a fixture level and no maximum zone size is defined.
