

INCENTIVES FOR EXTERIOR\* SEASONAL LIGHTING SYSTEM RETROFITS

EXTERIOR LIGHTING CATEGORY		ELIGIBILITY REQUIREMENTS	SMALL CUSTOMER CATEGORY	MEDIUM CUSTOMER CATEGORY	LARGE CUSTOMER CATEGORY
			OFFERED INCENTIVE	OFFERED INCENTIVE	OFFERED INCENTIVE
<b>New Fixture/Retrofit Kits</b>	Calculated Incentive (Non-prescriptive)	Without controls	\$0.20/W Reduced	\$0.20/W Reduced	\$0.18/W Reduced <sup>2, 13</sup>
		Basic dimming controls	\$0.28/W Reduced	\$0.28/W Reduced	\$0.25/W Reduced <sup>12</sup>
		Advanced networked dimming controls	\$0.39/W Reduced	\$0.39/W Reduced	\$0.35/W Reduced
	Instant Incentive Alignment (Prescriptive)	Without controls	See Lighting Instant Incentives <sup>3</sup>	See Lighting Instant Incentives <sup>2,3</sup>	See Lighting Instant Incentives <sup>2,3</sup>
		Basic dimming controls	\$0.20/W Controlled + Lighting Instant Incentives <sup>2</sup>	\$0.20/W Controlled + Lighting Instant Incentives <sup>2,3</sup>	\$0.18/W Controlled + Lighting Instant Incentives <sup>2,3</sup>
		Advanced networked dimming controls	\$0.39/W Controlled + Lighting Instant Incentives <sup>2</sup>	\$0.39/W Controlled + Lighting Instant Incentives <sup>2</sup>	\$0.35/W Controlled + Lighting Instant Incentives <sup>2</sup>
<b>Controls Only</b>	Basic dimming controls	\$0.20/W Controlled	\$0.20/W Controlled	\$0.18/W Controlled <sup>12</sup>	
	Advanced networked dimming controls	\$0.33/W Controlled	\$0.33/W Controlled	\$0.30/W Controlled	
	Exterior dimming controls	\$0.33/W Reduced	\$0.33/W Reduced	\$0.30/W Reduced <sup>12</sup>	

Continued

\*Exterior seasonal lighting is defined as lighting that is intended to illuminate spaces for large outdoor events and activities (e.g., sporting games). These lights tend to be on a seasonal schedule and/or on a daily schedule that is less than dusk to dawn.

**Notes for exterior lighting system retrofit incentives:**

14. To be eligible for the incentives listed, the new lighting system must use less energy than the existing lighting system being replaced or the baseline lighting system determined by Rocky Mountain Power.
15. Customers may receive incentives for qualified replacement lamps through a point of purchase incentive by purchasing from approved distributors, or by submitting a post-purchase application.
16. For the list of equipment with available Lighting Instant Incentives, see the Lighting Instant Incentives table. Where eligible for Lighting Instant Incentives as part of a retrofit project, Lighting Instant Incentive quantity limits do not apply.
17. Incentives are capped at 70 percent of energy efficiency project costs and are not available to reduce the energy efficiency project simple payback below one year. Energy efficiency project costs are subject to approval by Rocky Mountain Power.
18. Eligible retrofit lighting equipment is defined in qualified equipment lists posted on the Utah energy efficiency section at [Wattsmart.com](http://Wattsmart.com).
19. Per International Energy Conservation Code 2018 (IECC 2018) and program requirements, parking garages and areas under parking decks are considered interior spaces. Top decks are considered exterior spaces.
20. Qualified make and model numbers need to be entered into lighting calculator tool.
21. The Customer or Owner may receive only one financial incentive from Rocky Mountain Power per measure. Incentives listed in the table above cannot be combined with incentives received through the point of purchase Lighting Instant Incentive offer or the Home Energy Savings program.
22. Energy savings are subject to approval and are offered at Rocky Mountain Power's discretion. Energy Efficiency Project costs are subject to Rocky Mountain Power approval. Certain lighting technologies/upgrades have been deemed ineligible for incentives.
23. Exterior fixtures operating schedules are considered dusk to dawn. Any other operating schedule must be documented and verified.
24. In cases where controls are required for eligibility and existing controls, new control strategies must result in higher savings than the existing controls system to qualify for incentives. This can be achieved by replacing or adding to the existing controls system.
25. Basic controls for Large segment customers must be networked, continuously dimming, and addressable. Addressability does not have to be on a fixture level, and no maximum zone size is defined.
26. Starting July 28, 2022, Rocky Mountain Power temporarily waived the alternative eligibility requirement for large customers installing new lighting fixtures or retrofit kits without lighting controls in Utah. The alternative eligibility requirement as outlined by Note 2 will resume with 45-days' notice.
