Changes to wattsmart Business Program in Wyoming

To increase program participation and adoption of energy efficient lighting, incentives for mid-market lighting offerings are being increased. This incentive increase is meant to encourage the promotion and sales of specific eligible lighting equipment and thereby increase customer participation in the mid-market lighting program. The incentives being increased are highlighted in the table below and will become effective September 23, 2019. Incentives that are not highlighted will remain unchanged.

Mid-Market Lighting Instant Incentives Table

Measure	Current Offered Incentive	Offered Incentive Effective 9/23/2019	Maximum Incentive "up to"
Replacement Lamps:			
A-19 Lamp < 8 W, Medium Base	\$2.50/Lamp	No Change	\$10/Lamp

Wall Pack Fixture	\$30/Fixture	\$70/Fixture	\$75/Fixture
Wall Pack Fixture with Occupancy Sensor	\$60/Fixture	No Change	\$75/Fixture

Lighting equipment must be on current Qualified Equipment List. wattsmart Business incentives will continue to pay up to 70% of the qualifying Purchase Transaction-level Costs per measure, and these are subject to Rocky Mountain Power approval.

It is the Rocky Mountain Power's intent to make ongoing adjustments to incentives for certain measures in response to market conditions (changes in material costs, product availability, price competition, etc.), and stay in alignment with the Company's defined savings targets, incentive budget, and cost-effectiveness requirements.
