Changes to Wattsmart Business Program in Wyoming

As part of the Company’s efforts for continual improvement, and to further engage small business customers, Rocky Mountain Power is planning changes to the Wattsmart Business program in Wyoming. On May 1, 2021, Rocky Mountain Power will introduce the Small Business Enhanced (SBE) offering for eligible customers as a redesigned replacement for the offering previously known as Small Business Direct Install (SBDI).

Under this redesigned small business enhanced offering, eligible customers will work with an approved SBE vendor to install energy efficient upgrades at their facility. Incentives will cover up to \$5,500 for lighting and up to \$2,000 for non-lighting, for a maximum potential incentive of \$7,500 per facility. Customers will be responsible for a 25% co-pay on project costs.

The following webpage is currently under construction, but will go live on or before May 1, 2021:

<https://www.rockymountainpower.net/savings-energy-choices/business/wattsmart-efficiency-incentives-wyoming/wy-small-medium-business/wy-small-business-enhanced.html>

This webpage will provide details and information on the SBE offering. It will also allow customers the ability to check eligibility for SBE offerings and determine their customer size category by entering their Rocky Mountain Power account information. At a minimum, customers’ facility meters must be on either Schedule 25 or 28, and they must be in the “Small” customer size category to qualify for SBE offerings.

If you have questions or need more information concerning this notice, please [contact us](#).

Small Business Enhanced Offering			
Measure Type	Minimum Eligibility Requirements	Customer Co-Pay	Maximum Customer Incentive
Lighting	Facility meters on Schedule 25 or 28 and “Small” customer size category	25%	\$5,500
Non-Lighting			\$2,000

It is the Company’s intent to make ongoing adjustments to offerings for certain measures in response to market conditions (changes in material costs, product availability, price competition, etc.), and stay in alignment with the Company’s defined savings targets, incentive budget, and cost-effectiveness requirements.
