

## Blue Sky<sup>SM</sup> Block 2017 Prospective Product Content Label<sup>1</sup>

Blue Sky Block is sold in blocks of 100 kilowatt-hours (kWh). Blue Sky Block is a Renewable Energy Certificate (REC) product and does not contain electricity, which is billed separately. A REC represents the environmental benefits of 1 megawatt hour (MWh) of renewable energy. For more information visit [rockymountainpower.net/greenerecs](http://rockymountainpower.net/greenerecs).

In 2017, Blue Sky Block will be made up of the following new renewable resources averaged annually.

Green-e Energy Certified New <sup>2</sup> Renewables in Blue Sky Block 2017		Generation location
Wind	100%	OR, WA, CA, ID, UT, WY and/or the broader Western region <sup>3</sup>
<b>Total Green-e Energy Certified New Renewables</b>	<b>100%</b>	

1. These figures reflect the renewables that we plan to provide. Actual figures may vary according to resource availability. We will annually report to you before August 1 of next year in the form of a Historic Product Content Label the actual resource mix of the electricity you purchased.
2. New Renewables come from generation facilities that first began commercial operation within the past 15 years.
3. The Western region is defined as the states listed above, plus NV, AZ, MT, CO and NM. REC purchasing priorities, subject to market conditions, are to source first from any of the states listed in the table above, followed by the remaining states and in the Western region.

In 2016, the "basic fuel mix", the average mix of energy sources supplying Rocky Mountain Power customers, is 58.85% coal, 14.76% natural gas, 8.98% wind, 5.58% hydro, 0.44% biomass, 0.41% geothermal, 1.68% solar, and 9.31% miscellaneous. This information is based on Federal Energy Regulatory Commission Form 1 data. The Rocky Mountain Power "basic fuel mix" is based on energy production and not resource capability, capacity or delivered energy.

All or some of the renewable energy attributes associated with wind, biomass, geothermal and qualifying hydro facilities in Rocky Mountain Power's fuel mix may be: (a) used to comply with renewable portfolio standards or other regulatory requirements, (b) sold to third parties in the form of renewable energy credits and/or other environmental commodities or (c) not acquired. Rocky Mountain Power's basic fuel mix includes owned resources and purchases from third parties. As of February 1, 2016, not counting compliance use, approximately 36 percent of the renewable energy attributes associated with 2015 generation was sold to third parties or not acquired. This percentage may increase upon subsequent company sale of renewable energy certificates representing 2015 generation.

The average Rocky Mountain Power residential customer uses about 753 kWh per month.

Blue Sky Block is Green-e Energy certified, and meets the environmental and consumer-protection standards set forth by the nonprofit Center for Resource Solutions. Learn more at [www.green-e.org](http://www.green-e.org).

## Rocky Mountain Power's Prices, Terms & Conditions for Blue Sky Block

Blue Sky Block is certified by Green-e Energy, which requires companies offering certified products to provide their customers with this notice of Price, Terms and Conditions of service.

<b>Company:</b>	Rocky Mountain Power
<b>Who should I contact for more information?</b>	Call <b>1-800-769-3717</b> , email <a href="mailto:bluesky@pacificorp.com">bluesky@pacificorp.com</a> , visit <a href="http://rockymountainpower.net/bluesky">rockymountainpower.net/bluesky</a> or write to Rocky Mountain Power, P.O. Box 25308, Salt Lake City, UT 84125.
<b>How will I be billed for my Blue Sky purchase?</b>	Your Blue Sky Block charge will be listed as a separate line item on your monthly Rocky Mountain Power electricity bill. This charge is in addition to your regular electricity bill.
<b>How will the Blue Sky charge on my bill be calculated?</b>	\$1.95 per 100-kwh block of Blue Sky
<b>Will the Blue Sky rate change over time?</b>	Blue Sky rates are based on current Public Utility Commission approved tariffs. Pricing is subject to change. All rate changes require approval from the Public Utility Commission. Customers will be notified of any price change in advance through customer communication.
<b>What is the required contract length?</b>	The contract is month-to-month.
<b>Can I cancel my participation?</b>	You may cancel your participation at anytime with no fee by calling 1-800-769-3717 or writing to Rocky Mountain Power, P.O. Box 25308, Salt Lake City, UT 84125. There is no minimum contract length.
<b>What other fees might I be charged?</b>	You must also pay all applicable federal, state or local taxes.
