

# wattsmart New Homes Program Builder Incentives

Customize your incentives and cash in on the savings.

Whether you are building an ENERGY STAR® certified home or simply including energy-efficient features in the next home you build, we offer builders cash incentives that fit every project.

New construction whole home options	Single family (1- 4 plex)	Multifamily (5 plex or greater)
High Performance ENERGY STAR® Version 3 certified home	\$500	\$200
ENERGY STAR® Version 3 certified home	\$250	\$150
Above Code Home	\$25	\$25

A list of standalone incentives is included on the reverse. Whole home options will likely include efficiency features that are eligible for standalone incentives. Standalone incentives do not require whole home options.

## Get started as a wattsmart New Homes builder today:

It's easy to access the many benefits of the program. Simply follow these steps:

1. **Enroll** by completing a builder application
2. **Build** energy-efficient homes
3. **Submit** completed documentation within 180 days of completion
4. **Receive** your incentive check

Program details and forms are available at [rockymountainpower.net/newhomes](http://rockymountainpower.net/newhomes)  
For further information, please call 1-855-269-8386 or email [newhomes@rockymountainpower.net](mailto:newhomes@rockymountainpower.net)

Let's turn the answers on.
