## The easy way to set up your account

Our *Landlord Link* program saves time because you won't need to place a separate call to Rocky Mountain Power to establish your account with us.

### Here's how it works:

1. Your landlord may direct you to complete the Landlord Link service request form online. If so, please visit **rockymountainpower.net**, click on "Your Account" and select "Landlord Link" from the menu, then "New Tenant Service Request" to access the online form.
2. Your landlord will provide you with the meter ID number and meter reading for the rental property. You will need this information to complete the online New Tenant Service Request form.
3. Complete the online service request, double-check your information and submit.
4. Rocky Mountain Power creates your account and will notify you if a deposit is required or if you have an outstanding balance on a previous account.

Or, your landlord may have you complete a hard copy of the service request form when you fill out your other move-in paperwork. Your landlord will verify the form, check your ID and read your meter. Your landlord will submit the form to Rocky Mountain Power and Rocky Mountain Power will set up your account.
